ILLEGAL PLAYERS

In order for a player to be eligible to participate in the League the player must be registered with the league. (see Section 2 PLAYER ELIGIBILITY of league Rules & regulations). This means if it is a new player to your team that the change of Participant form has been submitted and approved by the OWH and submitted to the LLFHL and the player must be entered into Manage to Win prior to playing a game. If the player is a Pick Up player see section 7 of the Rules & regulations as to how to handle these situations. An illegal player is a two game suspension to the head coach for each game the illegal player played as well as forfeiting the game(s).
