

**Steve Montgomery
Head Coach Pee wee B**

Steve is thrilled to continue as the Head Coach of the Scarborough Sharks Pee wee B team for the upcoming 2019–20 season. He has over 20 years' experience coaching minor softball and hockey and has been involved with the Sharks organization for the past 6 years.

He is seeking players for the upcoming season who are dedicated and prepared to work hard in order to advance their skill development in a fun, but competitive environment.

His coaching philosophy is built on the creation of a space that challenges players to advance their skills while fostering strong bonds between players and promoting respect and commitment to the game. These goals are accomplished through the generation of a positive space that focuses on fundamental skill development, team building and empowerment through interactions with strong role models, including elite female hockey players.

Steve strongly believes that, at this level of play, developing fundamental skills should be the core focus of player development. Players and parents should expect a coaching style focused on hockey fundamentals, including skating, passing, puck handling and positional play in an engaging environment. These viewpoints are grounded in Steve's experience as a player and coach for over 35 years.

The team plan for the 2019-20 season includes:

- Pre-season team events, practices and dry-land training
- Team practices held twice weekly
- Practices enhanced by additional skills sessions and goalie training.
- Participation in at least 4 tournaments (1-2 "away" tournaments)
- Exhibition, regular season, LLHFL play-off and Provincial play-down games.
